7. New conclusions of the thesis:

- The thesis contributes to clarifying some issue of needs such as, information and political information. Sort out and analyse the basic content of the structure of political information demands and the role of students' political information needs. Highlight some factors affecting students' political information needs.

- The thesis has shown the alarm about the situation that many students are not really interested in political information, especially their need for political information is very low.

- The thesis contributes to systematizing and generalising the guidelines, policies and evaluating results in ideological and political education, especially, activities that stimulate the need for political information to meet the demand of those in students in the context of the development of the fourth industrial revolution.

- The thesis suggests some contents and proposes solutions to improve quality and efficiency, the methods of stimulation and the impact to meet the demand of the students in the digital industrial age. It is also well implemented the solution of the party about political and ideological education in current conditions.
