7. New contributions of the thesis

- The thesis raises the concept of Hanoi City Party Committee leading the construction of urban government, which is the overall activities of the City Party Committee in issuing resolutions to build urban government. Analyze and clarify the organization of resolution implementation and inspect and supervise implementation, in order to successfully implement the Party's guidelines and policies, and regulations of the National Assembly and the Government on urban government building

- The thesis analyzed 05 contents and 05 leadership methods of the Hanoi City Party Committee to build urban government. Thereby affirming the three leadership roles of the Hanoi City Party Committee in urban government construction: Firstly, the proper leadership of the Hanoi Party Committee to successfully implement the pilot urban government model organization in Hanoi city contributes to concretizing the guidelines and policies of the Party Central Committee and the National Assembly. , The Government continues to improve local government organization to meet the requirements of the new era; Second,

the proper leadership of the Hanoi City Party Committee makes an important contribution to determining the success of the model organization of the e-government agency in Hanoi city; Third, the proper leadership of the Hanoi Party Committee ensures the positivity, initiative, and exemplary character of the government, the Fatherland Front, and socio-political organizations from the City to the ward in policy building. urban rights

- The thesis has drawn on 04 leadership experiences of the Hanoi City Party Committee in urban government construction from 2019 to present. In particular, the new experience is to identify the pilot organization of the urban government model in Hanoi city as a new, difficult and complex task that requires regular leadership and direction.

- The thesis has proposed 06 solutions to strengthen the leadership of the Hanoi Party Committee for urban government construction in the coming time, of which three breakthrough solutions are: First, strengthening the organization and building Build a team of officials and civil servants of party committees and city, district, town and ward authorities to meet the operating requirements of the urban government model. Second, leaders build, complete and strictly implement working regulations of party committees and authorities at all levels, and coordination regulations between organizations with regular relationships, mainly in building urban government. town. Third, strengthen the work of guiding, inspecting, and supervising the organization and implementation of urban government construction and improve the quality of preliminary and final reviews of leadership practices in urban government construction in Hanoi city.
