INTRODUCTION

1. Rationales

Along with the entire Party and people of the country, the Party Committees in the North Central Region (NCR) are also intensifying the study and implementation of Ho Chi Minh's Ideology, Ethics, and Style in all Party organizations and the political system (PTS), as well as among the people in the NCR provinces. The study and implementation of Ho Chi Minh's Ideology, Ethics, and Style has become a vibrant movement, with many shining examples, and has brought positive results in the Party Committees and among the people of the NCR provinces.

However, alongside the achievements, there are still limitations in the study and implementation of Ho Chi Minh's Ideology, Ethics, and Style in the Party Committees of the NCR provinces. In many places, the study and implementation of Ho Chi Minh's Ideology, Ethics, and Style have not received adequate attention from the party committees. The work of dissemination, propaganda, mobilization, and persuasion has not been creative or appealing enough; the specific criteria for educating Party members are still slow and vague; the methods and ways of learning and following the ideology have been uncertain and ineffective, not truly becoming a vigorous and voluntary mass movement. Some Party Committees have only focused on the learning aspect but have not emphasized the "implementation" part, sometimes following the trend without a deep commitment...

Given the significance and importance of studying and following Ho Chi Minh's Ideology, Ethics, and Style, and based on the current situation, the researcher has chosen the topic: "Studying and Implementing Ho Chi Minh's Ideology, Ethics, and Style in the Party Committees of the NCR Provinces Today" as a doctoral thesis in the field of Party Building and State Administration, with the aim of contributing to enhancing the effectiveness of this study and practice in the Party Committees of the NCR provinces.
