7. New conclusions:

Firstly, the thesis presents the central concept of the topic; determines the theoretical framework of the thesis, including 4 contents and 5 methods of the Vietnam Fatherland Front at the provincial level in the Mekong Delta participating in building the same-level government.

The Vietnam Fatherland Front at the provincial level in the Mekong Delta participating in building the same-level government is an activity of the Front contributing to the Party organizations, governments at all levels, cadres, Party members, civil servants, public employees and people in the locality to successfully implement the contents of building a clean and strong provincial and municipal government, successfully performing the assigned functions and tasks.

Secondly, the thesis draws four practical experiences from the Vietnam Fatherland Front at the provincial level in the Mekong Delta participating in building the same-level government, in which the key experience is: Paying attention to building a team of Vietnam Fatherland Front officials at the provincial level with sufficient qualities, capacity, and prestige, paying attention to improving intellectual level and political capacity will ensure that the Front participates effectively in building the provincial and city governments, especially in social criticism of drafts and decisions of the provincial and city governments.

Thirdly, the thesis proposes a number of new breakthrough solutions: Perfecting and stabilizing the organizational apparatus; improving the quality of the staff of the provincial-level Fatherland Front Committee; innovating the method of participation in building the provincial and municipal governments of the Vietnam Fatherland Front at the provincial level according to new requirements.
